1. Low Start-Up Costs

The only required purchase is USANA's Business Development System. For as little as £220, you get a tried and tested system for creating an income-generating business that can last a lifetime, with no inventory, no employees, no boss, no set sales targets, no set hours, and no set workplace which is unlike other companies and why nearly 4 million people in the UK alone are now regular home-based business owners.

2. Simple Compensation Structure

No previous experience is necessary for you to be successful with USANA—just bring a willingness to learn and a passion for helping others improve their lives. It only takes your efforts and two individuals to do the same for you to start building a profitable downline organization. And, depending on your ambition and efforts, you can start earning commissions in your first week simply by sharing the products with others and ordering some for yourself.

3. Incredible Earning Potential
